# Welcome to Diesel Living's WORK IN PROGRESS

Under wraps and still taking shape, the projects of tomorrow are full of possibility. Around the world, our cities are shrouded in scaffolding, waiting to be completed and unveiled. Milan, Italy's capital of contemporary, is a city in flux, hidden behind construction, and as we wait to see what bright and better prospects are in store, Diesel Living creates its own building site – a place where, beyond the scaffolding and netting, a world of luxe design awaits, ready for all that's yet to come.

An unbounded exploration of iconography reflects the Diesel landscape: a mix of industrial styles, dark and adrenalized rock & roll spirit and the bright-toned, mischievous glee of pop. The vintage spirit shines, and aesthetic clashes add luster; textures and surfaces hold surprises, and furniture and objects communicate the racy and provocative spirit of Diesel.
